## EXPERIENCE

### Full Stack Developer Intern, *Metabees.in* 🔗

05/2023 – 09/2023

- Engineered and optimized intuitive UI/UX for web applications using Figma and various UI libraries.
- Developed, deployed, and maintained full-stack solutions, utilizing React.js for the frontend and Node.js, Express.js, and MongoDB for the backend.
- Orchestrated and executed seamless application deployments using Render, Vercel, and AWS, ensuring scalable and reliable infrastructure.

### Web Development Intern, *TwilLearn* 🔗

12/2022 – 02/2023

- Led solo frontend development projects, architecting responsive web pages using HTML, CSS, JavaScript, React.js, and TailwindCSS.
- Designed and engineered user-centric web pages, optimizing performance and enhancing the overall user experience.

## PROJECTS

### PLay-Me, *Collaborative Music/Video Streaming Platform* 🔗

- A real-time collaborative music streaming platform using Next.js, Tailwind CSS, and TypeScript, delivering a seamless and responsive user interface for creators and fans.
- Integrated Prisma with PostgreSQL to build scalable database interactions, handling user authentication and session management through Next Auth for secure login functionality.
- Implemented dynamic queue management, allowing users to add, vote on, and reorder YouTube videos in real-time, enhancing the interactive experience.

### Healthee, *Patient Appointment Manager* 🔗

- Engineered a comprehensive platform for managing patient appointments, including scheduling, personal/medical details, and automated SMS notifications.
- Built and integrated an Admin Panel for monitoring and managing patient records and appointment statuses.
- Technologies: Next.js, Appwrite, Twilio, Sentry.

### Shop Wave, *E-Commerce Web Application* 🔗

- Developed a full-fledged eCommerce solution with product management, user authentication, and secure PayPal payment integration.
- Designed and implemented an Admin Dashboard for real-time inventory management, order tracking, and user analytics.
- Implemented PayPal Sandbox for secure and reliable payment transactions.
- Technologies: MongoDB, Express, React, Node.js, Redux, React-Bootstrap, PayPal API.

## TECHNICAL SKILLS

### Front-End

HTML, CSS, React.js, Next.js, TailwindCSS

### Back-End / Database

Node.js || Express.js, MongoDB, PostgreSQL

### Tools

Git, GitHub, Docker

### Languages

Javascript || Typescript

## EDUCATION

### B.Tech - IT,

Shri Shankracharya Institute of Professional Management & Technology

2020 – 2024
